

GlobeHeat Datasheet : Product Codes:- GHT 9010, GHT 9011, GHT9020 and GHT 9021

Products: Panel Mounted, Male and Female 60A and 300A Twistlock Connectors

Product Code: GHT 9011

Product: 60A Female panel mounted twistlock connector

Application: Used in 60V output heat treatment units where output is equal to or less than 60A.

Product Code: GHT 9021

Product: 300A Female panel mounted twistlock connector

Application: Replacement twistlock socket for 60V output heat treatment units where output is greater than 60A up to 300A

Product Code: GHT 9010

Product: 60A Male panel mounted twistlock connector

Application: Used to connect 60V supply to units where in-line connectors are not suitable heating elements.

Product Code: GHT 9022

Product: 300A Male panel mounted twistlock connector

Application: Used to connect 60V supply to units where in-line connectors are not suitable

Brass specification	
Material	Brass (Hpb59-1)
Current	60A
Dielectric strength	20KV/mm
Working Temperature	-20°C to +100°C
Brass (Hpb59-1) % components:-	
• Cu	59%
• Hpb59-1Ni	1%
• Fe	0.5%
• Pb	1.5%
• Zn	37%
• Others	1%
